

Welcome Dr. Meagen Salinas

Leading Neurologist Specializing
in Movement Disorders

About Dr. Salinas

Dr. Salinas is certified by the American Board of Psychiatry and Neurology. She comes from the Dallas area where she held the positions of Assistant Chief, Neurology Section and Stroke Director of the North Texas VA Health Care System, as well as Assistant Professor and Fellowship Director – Movement Disorders, of the UT Southwestern Medical Center. She actively engages in research and holds memberships in both the American Academy of Neurology and the Movement Disorders Society.

With a patient-centered approach, Dr. Salinas significantly improves the quality of life for individuals with movement disorders. She aims to apply her extensive experience in general neurology and movement disorders clinical practice to benefit the Denver metro area. Additionally, she will actively participate as an investigator in clinical research trials of cutting-edge therapies for patients with movement disorders.

When not working with patients, Dr. Salinas enjoys spending time with her husband and 2 children, gardening, crafting, hiking, and reading historical fiction books.
